Experience

Coordinator Minor Smart Industry at Hogeschool van Arnhem en Nijmegen

September 2016 - Present

The Minor Smart Industry started in february 2017. Every year around 50 students are trained in the newest production, digitization and networking technologies. Our partners from the local business community provide the cases on which the participants of the Minor can apply their newly acquired skills and knowledge.

Founder

April 2015 - Present

This is Meetup group for R-Users located in the Nijmegen area. The 80+ members we share a passion for the R-programming language. Through regular Meetups we explore new use cases and exchange knowledge. The group is sponsored by Revolution Analytics (Microsoft).
